AB VISTA APPOINTS BRENNTAG NORDIC

AB Vista, a leading international supplier of new generation micro-ingredients for the animal feed industry, has confirmed Brenntag Nordic will be distributing AB Vista feed enzymes, including Quantum Phytase and Econase XT, throughout Denmark, Norway and Sweden from 1 May.

Brenntag Nordic is part of Brenntag, the largest ingredients and chemicals supplier in Europe. The company has built its reputation on customer service and strives to deliver the requirements of its customers, whatever their size. AB Vista will be working primarily with the Brenntag Nordic Agro division, which specialises in supplying feed additives to the feed industry.

Carsten Lund, Marketing Manager for Brenntag Nordic Agro comments: "We have been looking at the possibility of entering the feed enzyme market for a number of years. At Brenntag Nordic, we believe that this market will continue to grow as more customers realise the benefits they bring. Through AB Vista we have gained a strong partner with an extensive know-how in feed enzymes and we look forward to providing mutual benefits to our customers."

The distribution agreement between AB Vista and Brenntag Nordic is another step in AB Vista's growth plans which will promote the use of their market-leading products in Denmark, Sweden and Norway. AB Vista Global Sales Director, Ari Kiviniemi, said: "While the past few years have seen significant expansion at AB Vista, we believe that our continued growth requires strong local presence. The appointment of Brenntag Nordic as our distributor in Denmark, Norway and Sweden reflects our commitment to give a high level of support to existing and new customers in Scandinavia."
