

EXPERT SUPPORT AT EVERY STAGE

Feed Quality Service

- ✓ Assess feed quality/RM quality
- ✓ Adjust formulations
- ✓ Reduce feeding cost
- ✓ Optimise performance

Engineering Service

- ✓ Exploit enzymes by using appropriate dosing
- ✓ Optimise the feed conditioning process

Lab Service

- ✓ In-house or outsourcing feed QA
- ✓ Identify issues in the manufacturing process

HELPING YOU MAXIMISE YOUR BUSINESS POTENTIAL

AN OVERVIEW OF OUR TECHNICAL SERVICES

AB Vista helps you identify inefficiencies and opportunities across the entire feed production process

TECHNICAL SERVICES

Feed Quality Service

DEFINING FEED COMPOSITION AND NUTRITIONAL VALUE

- AB Vista's in-house expertise in nutrition, feedstuff quality and Near Infra-Red spectroscopy provides you with rapid and accurate predictions of the nutritional components of feed
- This information can help you make better raw material purchase decisions and formulate feeds closer to specification

WIDE-RANGE COVERAGE

	ENERGY	PROXIMATES	PHYTATE-P	NSPs	REACTIVE LYSINE	SID AAs
Corn	✓	✓	✓			
Sorghum	✓	✓	✓			
Wheat	✓	✓	✓	✓		
Barley	✓	✓	✓	✓		
Soybean meal		✓	✓		✓	✓
Canola meal		✓	✓		✓	
Other raw materials			✓			
Feeds			✓			

EASY ACCESS AND FAST RESULTS ENABLE PROMPT ADJUSTMENT OF FEED

- Scan sample on an NIR machine*
- Upload spectra to your personal account on www.feedqualityservice.com
- Well-presented results displayed immediately online
- Option to download your results into a Microsoft Excel file

*We can scan samples on your behalf and upload spectra to your account if you don't have an NIR machine.

Engineering Service

IMPROVE YOUR MANUFACTURING EFFICIENCY

- AB Vista's Engineering Service provides a broad investigation of equipment design, operation and effectiveness to help identify opportunities to improve your enzyme application process
- Exploit the advantages of liquid enzymes by using appropriate liquid dosing technology and equipment

Lab Service

FAST MONITORING AND QUALITY CHECKS

- AB Vista's Lab Service uses innovative enzyme assay technology to help quality assure feeds, either immediately in the mill or the laboratory
- Quickly determine enzyme activity in premix, feed and product samples
